## WORK EXPERIENCE

---

### Frontend Developer - Aptagrim, Hyderabad, Telangana

Aug 2022 - Present

Executed Psyhire and HRMS development, contributed to DRDO India, and managed diverse client projects. Provided active support, demonstrating adaptability across various scopes and requirements.

### Centre for Airborne Systems - DRDO India

- Actively collaborated with a skilled team on a DRDO project commissioned by the R&D lab, Centre For Air Borne System (CABS) for India's Ministry of Defence.
- Played an instrumental role in developing a cutting-edge surveillance application using STK engine, LabVIEW, and sophisticated hardware.
- Spearheaded the creation of an application designed to monitor and track missiles, jets, and various objects across different terrains—land, air, and water.
- Demonstrated a passion for impactful and mission-critical projects through involvement in the development process.
- Employed best coding practices and presented findings and solutions to the audience including senior developers and stakeholders.

### Psyhire - Product Development

- Significantly contributed to developing "Psyhire," the upcoming 3.0 version of our main product, Apta-HR.
- Drove substantial contributions to the enhancement of key features, including the candidate application process, skill assessment functionality, external career application, agency management, client creation, institution connection, and configuration settings for career management.
- Ensured the product's readiness and user-friendliness by playing a crucial role in these fundamental contributions as we progress towards its release.
- Gained experience with Atlassian Collaboration tools like Jira and Bitbucket along with Gitlab.

### Frontend Developer - Freelancer, Jaigaon, WB

Jan 2022 - July 2022

- Freelanced for a real estate business, migrating their website from WordPress to industry standard technology using Next.js. Collaborated on a project for a yoga business, facilitating the shift to a more modern aesthetic and other small projects.

### SDS - Amazon, Kolkata, WB

Oct 2021 - Jan 2022

- Served as an Amazon shipping and delivery support associate for North American customers, addressing queries and providing assistance on shipping issues.

## EDUCATION

---

### Indira Gandhi National Open University, B.A. in English | Delhi, India

June 2021 - June 2024

- **GPA:** 6
- **Relevant Coursework:** Team Management, Effective/Email writing, and Work culture ethics.

## PROJECTS

---

**Social Puff** – Implemented a web-3 social layer utilizing Polygon technology, incorporating Lens Protocol, STK, Next.js, Open Graph for social sharing, and Framer Motion for seamless animations.

**DSR Parkway** – Developed using Next.js to create SEO-friendly headers, optimizing website visibility, and incorporated Nodemailer in the server for email reception.

**Portfolio | Trail Addek** – Arrayed React.js to develop, incorporating useState, React Router, and lifecycle methods for efficient functionality. Deployed and hosted in Netlify.

**Cocktail | Popcorn Cinema** – Leveraged the Context API for state management and employed the Fetch API to handle data retrieval and server calls.

**Anime Freakk** – Integrated Bootstrap with React.js, proficiently managing loading states for enhanced user experience.

---

**SKILLS:** Javascript, TypeScript, Next.js, React.js, Node.js, Express.js, MongoDB, Mongoose, JEST, REST API, Redux, Bootstrap, Tailwind CSS, Git, Jira, Bitbucket, Gitlab.
